Professional Summary

UI Developer with 5+ years of hands-on experience building responsive, pixel-perfect, and user-friendly interfaces. Proficient in HTML5, CSS3, SCSS, JavaScript, and jQuery, with a solid grasp of UI/UX principles. Comfortable working across React JS, Angular, PHP, and .NET environments, translating design mockups from Figma and Photoshop into clean, maintainable code. Focused on writing scalable frontend code that works well across devices and browsers, while keeping up with evolving design patterns and web standards.

Technical Skills

Languages and Markup: HTML, CSS3, SCSS/Sass, javascript (ES6+), JQuery

Frameworks & Libraries: React JS, Angular, Bootstrap, Tailwind CSS, PHP, .NET (UI integration)

Design Tools: Figma, Adobe Photoshop

Other: Responsive Web Design, Cross-Browser Compatibility, UI/UX Principles, Component-Based Architecture, Performance Optimization, Git

Work Experience

Web Designer / UI Developer, Sumedha Softech Private Limited 07/2022 – Present | Jaipur

- Built and maintained responsive UI components using HTML5, CSS3, SCSS, JavaScript, and Bootstrap across multiple client projects
- Collaborated with backend teams to integrate frontend interfaces smoothly with PHP and .NET applications
- Converted Figma and Photoshop design mockups into pixel-accurate, cross-browser-compatible web pages
- Optimized page load speed and rendering performance through efficient CSS architecture and asset management
- Contributed to code reviews and maintained consistent coding standards across the frontend codebase

Web Designer / UI Developer, Kmv Softwares 02/2021 – 07/2022 | Jaipur

- Worked closely with designers and developers to turn creative concepts into interactive, responsive web applications
- Built dynamic UI features using JavaScript and jQuery that improved user engagement and usability
- Developed reusable UI components with SCSS and Bootstrap, reducing redundant code and speeding up delivery
- Applied best practices in semantic HTML, accessibility, and browser compatibility throughout the project lifecycle

Projects

Home Optima - Real Estate Platform

- Designed and developed a fully responsive real estate platform allowing users to buy, sell, and browse property listings
- Built advanced search and filtering features to help users narrow results by location, price range, and property type

Real Incredible India - Culture Blog, *India and its culture*

- Created reusable blog layout components including post cards, navigation, and article templates using SCSS and Bootstrap
- Followed a component-based architecture that kept the codebase organized and easy to extend

Boatflex - Boat Marketplace

- Developed interactive, user-friendly interfaces for a boat buy/sell/rent marketplace using JavaScript frameworks and front-end libraries
- Ensured the platform worked seamlessly across devices and screen sizes through thorough responsive design practices

Education
